June 1st, 2020 - Introduction

The Bronze Age ca 3500-1150 BCE was a formative period in the Southern Levant, a region that includes present-day Israel, Jordan, Lebanon, the Palestinian Authority, and southwest Syria. This era, which ended in a large-scale civilization collapse across this region, shaped later periods both demographically and culturally.

Introduction to the Levant during the Late Bronze Age

May 8th, 2020 - This article discusses the history of the Levant during the Late Bronze Age. During this period, the Levant acted as an active crucible in which ideas, technologies, materials, goods, and ideologies were melted together to produce an eclectic cultural and ideological alloy with its own distinctive character.
